To Whom It May Concern,

I am writing this letter to recommend Associated Propane as an outstanding provider of propane and other fuel sources. We have received service from Associated Propane for several years now, and never once have we had anything less than a positive experience.

Being in the wine industry, it is paramount that we are operational when the grapes are ready to be processed, and Associated has done a great job responding to our needs during the harvest months. From checking in more regularly during that time frame, to getting us fuel with short notice in "emergency" instances, they truly have gone above and beyond.

Having had service issues with other providers, we are extremely happy that we made the switch to Associated Propane, and are very confident in our recommendation of their services.

Best Regards,

Nate Rippey
